Hi Jake –

During our discussion at this past Tuesday's staff meeting – you indicated that you wanted to review some documents about pesticide registration and our division. So with these attachments and links here is a try at covering some of the big topic areas that jump out in my mind. What's here are the 'basics' on things like our work plan, pesticide labels and the registration process. But please let us know if you'd like more content or to focus on different issues.

Thank you for attending the staff meeting. It is energizing for our managers to hear from people at your level and your comments there (and also during Wednesday's all hands) were great.

Hope these are useful. Dan
